# Project 3 Proposal

---

## Group members

Anastasia Skrypnyk  
Srinivas Jayaram  
Anupriya Singh  
Cody Dixon  
Judsica Donbosco

## Crime rates in Toronto

### Questions we can focus on:

1. What type of crime occurs most frequently in Toronto?
2. Which locality is safest?

## Visualisations/outline :

1. Srinivas Jayaram found data, jsonified the csv files
2. Anastasia Skrypnyk to execute exploratory analysis & matplotlib visualizations, specifically: bar charts, scatter plots, pie charts & any other relevant charts
3. Srinivas Jayaram to create visualizations using Leaflet
4. Cody Dixon: Flask
5. Anupriya Singh: SQL
6. Judsica Donbosco using D3 library to create interactive visualization based on locality ID/name

## Data sets to look at

1. <https://data.torontopolice.on.ca/search?tags=mci>
